

4K ULTRAHD

The Hisense A76K series includes QLED – Quantum Dot Color Technology to dramatically increase the color space and improve overall color saturation from everything you watch. FilmMaker Mode reproduces movie content the way the director originally intended and adding Game Mode Plus with variable refresh rate at 4K 60Hz and auto low latency mode keeps the A7 series at pace with next-generation game consoles. The A7 series supports Dolby Atmos for an immersive audio experience and Chromecast built-in for simple video casting capabilities. These advancements are available in all sizes and position the A76K series as the “go-to” Hisense television for the perfect “big” 4K fit.

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you, from across your subscriptions and content available to you. Ask Google to find movies and shows, answer questions, control smart home devices, and more, with your voice. And with the Google TV app you can watch anywhere, anytime.

4K Ultra High Definition

4K resolution improves upon Full High Definition with 3840 x 2160 pixels. More pixels on the screen produces a clearer picture making content look more realistic and true-to-life. Combined with Hisense's AI UHD Upscaler, non-4K content will get enhanced to near-4K quality.

QLED – Quantum Dot Color

Quantum Dot produces purer, richer, more brilliant and accurate colors than a regular LED TV. Creating over a billion color combinations bring vibrant images to life in a way non-QLED TVs can't.

Google TV

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you.

Dolby Vision™ HDR and HDR10

Innovative visual technology, Dolby Vision, brings the characters to life with darker darks, brighter brights, and a remarkable color range you can't get anywhere else. HDR10 is an HDR format that delivers HDR content via compatible over-the-air signals.

Game Mode Plus

Game Mode Plus is a collection of technologies that come together to create a dynamic gaming experience. A 60Hz panel, variable refresh rate, and auto low latency mode makes sure that the television can handle the rigors of next-generation gaming consoles.

Dolby Vision Game

This television can support Dolby Vision for gaming at 4k 60Hz.

Sports Mode

With sports mode's pre-set settings, the television automatically adjusts itself to optimize sports content. Motion is smoother and color is adjusted for the best sports experience possible.

Google Assistant *

Press the Google Assistant button on your remote to do more on your TV with your voice. Ask Google to search for the latest blockbuster, stream shows, or open multiplayer games. Have it dim the lights by connecting smart home devices. Manage tasks and see your calendar. Or ask it questions and see the answers on your TV.

Chromecast Built-in

Go from your phone, tablet, or laptop to your TV in an instant. With Chromecast built-in, you can cast all your favorite movies, shows, apps, games, and more directly to your TV.

Dolby Atmos

Discover the Dolby difference — a premium entertainment experience that helps you feel a deeper connection to the movies, shows, music, sports, and games you love. Hear what you've been missing with an immersive experience like no other.

Voice Remote

With the voice remote, you can open apps, adjust the volume, and search for your favorite shows using your voice. Just press the Google Assistant button on your remote to talk to Google.

Bluetooth™ Connectivity

Wirelessly connect a compatible soundbar, headphones or stereo components to your TV. Then turn it up. Sounds like your favourite playlists sound better.

*Google Assistant-compatible products required to use voice commands

*HDR viewing experience will vary by model, content availability and internet connection.
