AVAILABLE SIZES

85" | 75" | 65" | 55"

**Hisense**  
**ULED TV**  
MINI-LED

Change your entertainment game! The U75 series smart display from Hisense is packed with lots of exciting features that dramatically improve your watching and playing experience. Think: Mini-LED Pro, QLED Quantum Dot color technology and 144Hz Game Mode Pro. Plus, we even equipped the U75 with a NEXTGEN TV ATSC 3.0 tuner and Wi-Fi 6E router compatibility, making it virtually future-proof.

### Mini-LED Pro with Full Array Local Dimming

Experience the latest in backlight technology. Mini-LED Pro is big on little details with Up to Peak Brightness 1500 for detecting stars in the night sky. Add in the Full Array Local Dimming and every game, show and movie comes into crisp focus. Once you see the darkest darks, whitest whites and brightest brights, there's no going back.

### QLED Quantum Dot Color

See color like you've never seen it before. QLED Quantum Dot Technology, significantly broadens the range of color you perceive to create over a billion individual shades. So, you can soak up every wave of the Caribbean Sea and every brushstroke of the desert sunset.

### Hi-View Engine Pro

Enhance the quality of your picture. The Hi-View Engine PRO chipset is the brain behind your screen, processing the most dazzling imagery before your eyes. The AI chipset uses deep learning and other innovative technologies, like: Dynamic Tone Mapping Pro, Face Detection, AI HDR Enhancement and AI Detail Enhancement to continuously improve your viewing experience.

### 144Hz Game Mode Pro

Level up your gaming. The 144Hz Game Mode Pro is designed with the technology you need to get on the leaderboard. With a Variable Refresh Rate of 48Hz to 144Hz, your console and PC gaming can beat any opponent that comes your way. AMD FreeSync™ Premium Pro, Auto Low Latency Mode and Low Latency MEMC, virtually eliminate annoyances like screen tearing and controller input lag in your play. The New Game Bar lets you customize and adjust your gameplay right from your TV, with your remote, not just your controller.

### Dolby Vision · Atmos

Get transported through the screen. Dolby Vision captures even the most subtle emotions flickering across an actor's face during a dark night scene. And the multidimensional sound of Dolby Atmos puts you smack-dab in the action, whether that's a jungle, urbanscape or rocketship.

### Google TV

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across apps and subscriptions and organizes them just for the user. And helps the user discover new things to watch with recommendations based on their interests.
